

Electric Valve Kits & Components

Electric Control Kits, 20-Bar

One, two, three & five section electric kits suitable for linkage sprayers and low-pressure horticultural sprayers. Suitable for agricultural spraying applications up to 20 Bar.

ORDER CODE	DESCRIPTION	\$ (EX. GST)	\$ (INC. GST)	PROD. CAT.
I-E2012	Single electric shut-off system for boomsprayers such as linkage or small trailing units. Complete kit includes single in-cab switchbox with mount, 4 metre wiring loom, manual PRV, electric single shut-off valve with bypass to tank, three manual taps for 3-section boom shut off (manually) if required. This kit is designed as an economical way to shut off a complete boom from a tractor or vehicle cab.	764.50	840.95	X
I-E2022	2-section (left/right) electric control with proportional bypass shut-off valves, electric pressure adjustment & in-cab switch box	1,277.02	1,404.72	X
I-E2032	3-section (left/right) electric control with proportional bypass shutoff valves, dump valve, filter, electric pressure adjustment & in-cab switch box	2,110.19	2,321.21	X
I-E2052	5-section (left/right) electric control with proportional bypass shutoff valves, dump valve, filter, electric pressure adjustment & in-cab switch box	2,395.18	2,634.70	X

shut-off kit

I-E2012 control
kit shown fitted
to sprayer.

If you need an electric control system for your sprayer, take a look at the manifold options listed below to hook up to an auto-rate controller.

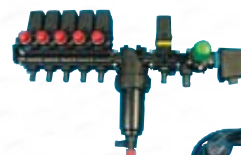

Electric Control Manifolds & Switchboxes

ORDER CODE	DESCRIPTION	\$ (EX. GST)	\$ (INC. GST)	PROD. CAT.
A471CCRO01	Control manifold for auto-rate controllers, for pumps up to 180l/min, manual PRV, electric bypass (7 sec), dump valve, 80-mesh flushing filter, rapid-check Polmac flowmeter, mounting brackets [Boom shut-off valves not included, refer page 27]	1,761.16	1,937.28	X
A473CCRO01	Control manifold for auto-rate controllers, for pumps up to 280l/min, manual PRV, electric bypass (7 sec), dump valve, 80-mesh flushing filter, rapid-check Polmac flowmeter, mounting brackets [Boom shut-off valves not included, refer page 27]	1,761.16	1,937.28	X
A471CCRO02	Control manifold for basic electric control systems. Max flow 180 l/min, 20-bar rated. Kit includes manual PRV, Regulating valve, dump valve, pressure filter & three proportional electric boom shut-off valves	1,700.52	1,870.57	X
A471CCRO03	Control manifold for basic electric control systems. Max flow 180 l/min, 20-bar rated. Kit includes manual PRV, Regulating valve, dump valve, pressure filter & five proportional electric boom shut-off valves.	1,985.18	2,183.70	X
A466363600	3-section switchbox & looms to suit A471CCRO02 listed above	445.52	490.07	Y
A466365600	5-section switchbox & looms to suit A471CCRO03 listed above (not pictured)	477.25	524.98	Y
