US400/FF

3 metre suction hose kit standard with Firefighter. Allows suction from external water source.

CropMister 500

Honda powered Cropmister c/with AR252 (25 l/min) Pump, galvanised frame and misting fan. The Cropmister is fitted with belts and clutch to allow the mister to be operated independently of the pump. This unit can be used with the fan engaged for misting operations, or disengaged for spot spraying or fire fighting applications.

The Cropmister is ideal for insecticide application for control of locusts, red-legged earth mite and similar insect pests.
