

Tank Fittings, Mixers & Drain Valve

Tank Fittings, Drain Valve & Powder Mixer

Anti-Vortex Tank Outlets

Using a large capacity pump? This fitting attaches to the tank outlet and minimises liquid vortex which causes pumps to suck air when the tank level is low. Get this fitting and empty the tank without a hassle! Fitting comes c/w back nut and washer.

Drain Valve

2" BSP anti-pollution drain valve. Can be fitted to most spray tanks with pull-cord to open/close.

Powder Mixer

Hydraulic powder mixer. Can be fitted into strainer basket (illustrated right), and operated from pump pressure to mix powders and granules successfully.
